Revision Date: 06-18-2012 Product Code: FC7530-00

## I. PRODUCT AND COMPANY IDENTIFICATION

Product Name: FC ALIPHATIC URETHANE TOP COAT NEUTRAL BASE

Product Code: FC7530-00 Document ID: MFC7530-00

Company: NEOGARD® - a Division of JONES-BLAIR® Company

2728 Empire Central Dallas, TX 75235 1-214-353-1600

Revision Number: 3

Prior Version Date: 05-28-2009

Chemical Family: Urethane Floor Coating

Industrial Maintanance Floor TopCoat Urethane

Emergency Contact: ChemTrec Center Emergency Phone: 1-800-424-9300 International: 703-527-3887

# **II. HAZARDS IDENTIFICATION**

# EMERGENCY OVERVIEW: DANGER!

Causes skin irritation. Causes eye irritation.

Vapor and spray mist harmful. Causes nose and throat irritation. Overexposure may cause lung damage. May cause allergic skin and respiratory reaction. Effects may

be permanent.

Routes of Entry: 
• Inhalation

IngestionSkin contactEye contact

Target Organs Potentially Affected by Exposure:

Skin

Respiratory Tract

LiverKidneys

Medical Conditions
Aggravated by Exposure:

Skin allergies.

 Individuals with lung or breathing problems or prior reaction to isocyanates must not be exposed to vapor or spray mist.

• Respiratory disorders, including but not limited to asthma and bronchitis.

•

### Immediate (Acute) Health Effects by Route of Exposure:

Inhalation Toxicity: Vapor harmful. May affect the brain or nervous system causing dizziness, headache or

nausea.

**Skin Contact:** Can cause moderate skin irritation. Sensitizer. Avoid exposure. If sensitized, repeated

exposures will result in irritation, reddening, and rashes even for very low exposures.

May cause allergic skin reaction.

**Skin Absorption:** May be harmful if absorbed through skin.

Eye Contact: Can cause severe irritation. Eye contact may result in corneal injury. Symptoms may include

discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva. Temporary vision impairment (cloudy or blurred vision) is possible.

**Ingestion Toxicity:** Harmful if swallowed.

# **Long-Term (Chronic) Health Effects:**

**Inhalation:** Isocyanate vapors or mist at concentrations above the TLV can irritate the mucous

membranes in the respiratory tract causing runny nose, sore throat, coughing, chest

Page 1 of 5

Revision Date: 06-18-2012 Product Code: FC7530-00

discomfort, shortness of breath and reduced lung function. Exposure well above the TLV may lead to generally reversible bronchitis, bronchial spasm and pulmonary edema. Repeated overexposure causes sensitization in some individuals resulting in asthma-like symptoms on subsequent exposures below the TLV.

Persons with preexisting bronchial hyperactivity can respond to concentrations below the TLV with similar symptoms as well as an asthma attack.

NOTICE: Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage. Intentional misuse by deliberately concentrating and inhaling the contents may be harmful or fatal.

**Skin Contact:** Prolonged contact may cause an allergic skin reaction.

#### **III. COMPOSITION/INFORMATION ON INGREDIENTS**

Chemical Name	%	CAS#
Homopolymer of Isophorone Diisocyanate	70 - 90	53880-05-0
ISOPHORONE DIISOCYANATE	1 - 5	4098-71-9
Methyl Piperidene Sebacate Derivitive	1 - 5	41556-26-7
Butyl carbitol acetate	0.5 - 1.5	124-17-4
(d)-Limonene	0.5 - 1.5	5989-27-5

#### **IV. FIRST-AID MEASURES**

**Inhalation:** Remove individual to fresh air after an airborne exposure if any symptoms develop as a

precautionary measure. If breathing difficulty persists or occurs later, consult a physician and

have MSDS available.

Eyes: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get

medical attention immediately.

Skin Contact: Wash with soap and water. Remove contaminated clothing and launder. Get medical attention if

irritation develops or persists. Thoroughly wash or discard clothing and shoes before reuse.

**Ingestion:** If swallowed, do not induce vomiting. Get medical attention immediately.

## **V. FIRE FIGHTING MEASURES**

Extinguishing Media: Use alcohol foam, carbon dioxide, or water spray when fighting fires

involving this material.

Fire and/or Explosion Hazards: Material may be ignited only if preheated to temperatures above the high

flash point, for example in a fire.

Fire Fighting Methods and Protection: Do not enter fire area without proper protection including self- contained

breathing apparatus and full protective equipment. Do not enter fire area without proper protection including self- contained breathing apparatus

and full protective equipment.

Hazardous Combustion Products: Carbon dioxide, Carbon monoxide, Nitrogen containing gases,

Isocyanates, Hydrogen cyanide, Isocyanic Acid, Toxic fumes, Toxic

gases, Hydrocarbons

Flash Point (°F/°C): 205 / 96

Lower Flammable/Explosive Limit, % in air: 0.7

#### VI. ACCIDENTAL RELEASE MEASURES

Personal Precautions and Equipment: Exposure to the spilled material may be irritating or harmful. Follow

personal protective equipment recommendations found in Section VIII of this MSDS. Additional precautions may be necessary based on special circumstances created by the spill including the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill.

Methods for Clean-up: Prevent the spread of any spill to minimize harm to human health and

Revision Date: 06-18-2012 Product Code: FC7530-00

the environment if safe to do so. Dike with suitable absorbent material. Gather and store in a sealed container pending disposal.

## **VII. HANDLING AND STORAGE**

Handling Technical Measures and Precautions: Harmful or irritating material. Avoid contacting and avoid

breathing the material. Use only in a well ventilated area. As with all chemicals, good industrial hygiene practices should be followed when handling this material. Wash thoroughly after

handling. Do not get in eyes, on skin and clothing. Store in a cool dry place. Keep container(s) closed.

**Storage Technical Measures and Conditions:** 

#### VIII. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Measures: Use local exhaust ventilation or other engineering controls to minimize exposure.

Engineering controls must be designed to meet the OSHA chemical specific standard in

29 CFR 1910.

Respiratory Protection: General or local exhaust ventilation is the preferred means of protection. In cases where

ventilation is inadequate, respiratory protection may be required to avoid overexposure. Follow respirator manufacturer's directions for respirator use. For poorly ventilated areas or during spray application use NIOSH approved supplied air respirator unless air monitoring demonstrates vapor/mist levels below applicable limits. When monomeric isocyanate concentrations are below 0.05 ppm (10 times the 8 hour TWA exposure limit), an appropriate combination organic vapor and particulate respirator (NIOSH approved) may be appropriate. An end-of-service-life Indicator (ESLI) or a change schedule is

mandatory.

**Eye Protection:** Wear chemically resistant safety glasses with side shields when handling this product.

Wear additional eye protection such as chemical splash goggles and/or face shield when

the possibility exists for eye contact with splashing or spraying liquid, or airborne

material. Have an eve wash station available.

**Skin Protection:** Avoid all skin contact by covering as much of the exposed skin area as possible with

appropriate clothing to prevent skin contact. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Clothing suitable to

prevent skin contact. Wear chemical resistant gloves.

**Control Parameters:** 

Chemical Name ACGIH TLV-TWA ACGIH STEL OSHA PEL-TWA

ISOPHORONE DIISOCYANATE 0.005 ppm (TWA)

## IX. PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Liquid VOC (g/l) (Regulatory, Calculated): 42.14

(Actual, Calculated): 42.14

Viscosity:3300 - 4300 CPSSolubility in Water:Negligible; 0-1%Octanol/Water Partition Coefficient:Not Available

Volatiles, % by Volume (Calculated): 5.33 Volatiles, % by weight (Calculated): 4.17

**Density:** 8.42 - 8.62 lbs./Gal.

Physical and Chemical Properties are calculated target or range values for single packaged items and do not represent compliance values for multi-component (mixed) systems.

## X. STABILITY AND REACTIVITY

**Stability:** Stable under normal conditions.

**Conditions to Avoid:**Temperatures above the high flash point of this combustible

material in combination with sparks, open flames, or other

sources of ignition. Contamination.

Page 3 of 5

Revision Date: 06-18-2012 Product Code: FC7530-00

Materials to Avoid/Chemical Incompatibility: Moisture, Amines, Alcohols, Caustics (bases, alkalis), Oxidizing

agents

**Polymerization:** Contact with moisture, other materials that react with isocyanates

or temperatures above 350° F may cause polymerization. Carbon dioxide, Carbon monoxide, Nitrogen containing gases, Isocyanates, Hydrogen cyanide, Isocyanic Acid, Toxic fumes,

Toxic gases

# XI. TOXICOLOGICAL INFORMATION

**Hazardous Decomposition Products:** 

**Component Toxicology Data:** 

CAS Number LD50/LC50

Homopolymer of Isophorone

#### XII. ECOLOGICAL INFORMATION

Toxicity data, if available, are listed below.

#### XIII. DISPOSAL CONSIDERATIONS

**Disposal Methods:** 

Refer to other sections of this MSDS to determine the toxicity and physical characteristics of the material to determine the proper waste identification and disposal in compliance with applicable regulations.

### **XIV. TRANSPORTATION INFORMATION**

This section provides basic shipping classification information and does not contain all regulatory transportation details. Refer to all applicable regulations for domestic, international, air, vessel and ground transportation requirements and restrictions.

**DOT Basic Description:** Paint, Not-Regulated

## XV. REGULATORY INFORMATION

# **United States Federal Regulations:**

**TSCA Status** 

All components of this product are either listed on the TSCA Inventory; or, are not subject to the inventory notification requirements.
